

## *The Lion: Portable Ozone Destructor*

### **Model ODX-250: Powerful, Chemical Free**

- Removes ozone after treatment by ozone generator.
- Destruct ozone by pure catalytic process without by-products.
- Low running costs.

#### **Main Specification:**

- Input Voltage: 230V; 50Hz.
- Power consumption: 35W.
- Air Circulation Flow-Rate: 520 m<sup>3</sup>/h.
- Active Destruction Area: 900 cm<sup>2</sup>
- Destruction Efficiency: 95% per cycle.
- Weight: 4Kg
- Size: 29cm (L) x 28cm (W) x 31cm (H).
- Main body: Powder coated Aluminum.

#### **Features:**

- Removable Ozone Filtering Housing for easy replacement of 4 x catalytic ozone filters (each of size 15cm x 15cm and 15mm thickness).
- Mode-Selector Switch between Local (L) and Remote (R) control.
- Local control by 6-Position times Selector (5, 10, 15, 30, 45 and 60 minutes).
- Operation Hours Counter (for control of periodic maintenance).
