

The *Tiger*: a powerful mobile ozone generator

Main specification:

Input Voltage: 230V; 50Hz.

Power Consumption: 440W.

Distribution Rate: 650 m³/h.

Ozone Generation Rate: 12,500 mg/h.

Remote function key (for remote control operation).

Flexible and traceless wheels.

Removable handle.

Metal enclosure coated with anti-rust powder coating.

Color: Black and Yellow.

Dimensions: Height: 88 cm (with handle up);
width: 36cm, depth: 33.5cm. Net weight: 27 kg.

Operation Conditions: Indoors use only.

Temperature range: 0°C to 35°C

Relative humidity: up to 95%.
