

DATA SHEET

ECB-2S INDUSTRIAL WALL-MOUNTED OZONE GENERATOR

Highly effective for odor removal and sanitation in Industrial Locations

The ECB-2S is a compact yet powerful ozone generator that utilizes Ecozone's unique Singlet Core technology. It is specially designed for professional odor control and sanitation of large rooms. It is built to high standards and has a very long operative lifetime and is highly reliable.

Applications

- Air Treatment & Odor Control
- Eradication of mold, viruses and bacteria
- Food Processing & Storage plants
- Livestock facilities
- Wine & Beer production facilities
- Medical Cannabis decontamination
- Sewage Treatment plants

Features & Benefits

- Ozone Generation Rate: 12,500 mg/h
- Distribution Rate: (air blower) 600 m³/h
- Most advanced & reliable ozone generator core on the market
- Eliminates tough odors of VOCs
- User friendly controls
- Ready to Use immediately upon delivery
- Dedicated function key for remote control operation
- Metal enclosure coated with anti-rust powder

Technical Specifications

Input Voltage	230V; 50Hz (Europe) / 115V; 60Hz (North America); single phase
Power Consumption	390W
Flow Rate	600 m ³ /h
Ozone Generation-Rate	12,500 mg/h
Treatment Volume	Up to 750 m ³
Dimensions	40 cm (D) x 38 cm (W) x 67 cm (H) without outlet coupler, 78 cm (H) with outlet coupler
Weight	23.5 kg / 26.5 kg
